*Exploring Ancient Egypt*, the fifth volume in the *Places in Time* series, reveals the excitement of science and history as it tours archaeological discoveries from ancient Egypt.

Each of twenty chapters treats a particular site, reflecting a variety of site types (pyramids, rock tombs, temples, and most of the major settlements such as el-Amarna and Alexandria) and offering a balance between daily life, religion, and funerary practices. Each site-chapter features a map showing its location, a site reconstruction, and a chronological table covering the span of occupation. Each chapters narrative describes the history of the sites excavation, the principal finds, and a discussion of the particular method being used.

*Exploring Ancient Egypt* offers a fascinating lens in which to view the culture and lifestyle of the people of ancient Egypt, their technological achievements, their relationships with and ways of exploiting the environment, and the spiritual ideologies that motivated them.
