**Petroleum Geoscience** Jon Gluyas, Richard Swarbrick

*Petroleum Geoscience* is a comprehensive introduction to the application of geology and geophysics to the search for and production of oil and gas.

Uniquely, this book is structured to reflect the sequential and cyclical processes of exploration, appraisal, development and production. Chapters dedicated to each of these aspects are further illustrated by case histories drawn from the authors' experiences. *Petroleum Geoscience* has a global and 'geo-temporal' backdrop, drawing examples and case histories from around the world and from petroleum systems ranging in age from late-Pre-Cambrian to Pliocene.

In order to show how geoscience is integrated at all levels within the industry, the authors stress throughout the links between geology and geophysics on the one hand, and drilling, reservoir engineering, petrophysics, petroleum engineering, facilities design, and health, safety and the environment on the other.

- *Petroleum Geoscience* is designed as a practical guide, with the basic theory augmented by case studies from a wide spread of geographical locations.
- Covers all the key aspects of the origin of petroleum, exploration, and production. It takes account of the modern emphasis on the efficient utilisation of reserves, on new methods in exploration (such as 3-D seismics).
- Book takes 'value-chain' approach to Petroleum Geoscience.
- First new text on petroleum geology for geology undergraduates to be published in the last ten years.
- Packed full of real-life case studies from Petroleum industry.

### From reader reviews:

#### **William Mayer:**

Information is provisions for people to get better life, information these days can get by anyone with everywhere. The information can be a understanding or any news even a problem. What people must be consider while those information which is in the former life are challenging to be find than now is taking seriously which one would work to believe or which one the resource are convinced. If you receive the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen with you if you take Petroleum Geoscience as your daily resource information.

#### **Marcus Laws:**

People live in this new time of lifestyle always attempt to and must have the free time or they will get lots of stress from both lifestyle and work. So , whenever we ask do people have time, we will say absolutely yes. People is human not just a robot. Then we request again, what kind of activity have you got when the spare time coming to you of course your answer will unlimited right. Then ever try this one, reading textbooks. It can be your alternative inside spending your spare time, the book you have read is usually Petroleum Geoscience.

#### **Maria Freeman:**

Playing with family in the park, coming to see the water world or hanging out with good friends is thing that usually you have done when you have spare time, subsequently why you don't try thing that really opposite from that. One activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Petroleum Geoscience, you could enjoy both. It is excellent combination right, you still wish to miss it? What kind of hangout type is it? Oh can happen its mind hangout men. What? Still don't obtain it, oh come on its referred to as reading friends.

#### **Douglas Stevens:**

Don't be worry should you be afraid that this book can filled the space in your house, you could have it in e-book approach, more simple and reachable. This specific Petroleum Geoscience can give you a lot of friends because by you taking a look at this one book you have factor that they don't and make a person more like an interesting person. This particular book can be one of a step for you to get success. This guide offer you information that might be your friend doesn't recognize, by knowing more than additional make you to be great men and women. So , why hesitate? Let's have Petroleum Geoscience.
