Epics of history are rare and The Peacock Throne is one of them. No royal lineage offers such a spectacle of high drama as the Mogul Dynasty of India which created the world`s most famous monument-the Taj Mahal. Not since Greek tragedy has there been so stark a revelation of the excesses of human behavior: incest, fratricide sons revolting continuously against fathers and the madness of uncontrolled aggression. These are the forces animating The Peacock Throne which brings India to both Eastern and Western readers as never before.
