Welcome to our first *Minecraft Special Edition*.

It's been loads of fun putting this together and we can't wait to hear what you think.

Inside you'll find a collection of all things Minecraft. Read fiction, test your Minecraft IQ, and see some really cool builds that will inspire you!

Hope you love it - *Ed*

Did you know - the sounds Enderman makes are actually words that have been reversed and distorted? So what's he really saying?

ANSWER INSIDE eMAG

Fiction: A mystery begins to unfold in our exclusive serial story, *My name is Steve...*

Bonus Content

The Z-Diaries

Tonight I swore an oath.

I had no idea at the time I would break it only hours after I made it.

You probably would have too, if you were me.

This is the story of how I made, and broke, my oath to never turn anyone into a zombie.

*eMag has been specially formatted for devices with large screens, and is designed to be read in portrait mode. It is not recommended for black and white devices.

Note - some pages will not display correctly in landscape mode. Unfortunately, due to the way ebooks work, this is unavoidable.

For those who want more information ... If you want more information about reading eMag on a cell phone, we have included some at the bottom of the 'Please Note' section.

PLEASE NOTE :Each page of eMag is a 'fixed' page [images with text - like you would see in a regular paper magazine].

The fiction component of the bonus content can be read in two ways:

Fixed- to fit the layout of eMag as if it were a traditional publication.

Reflowable - regular style for most ebooks.

Because of the length of the fiction, we have included both options. This has been done for various reasons, including the variety of device sizes. But mostly it has been done for reader comfort, because we are aware that some readers choose ebooks because of vision or neurological conditions, and being able to change the settings for large chunks of text will improve their reading experience.

PLEASE NOTE : CELL PHONES - Reading eMag on cell phones : The largest screen tested was 6cm x 8cm - about the size of a Samsung Galaxy or iPhone - but some people may find reading text at this size hard. There are also a few pages you may have to zoom in on. Reading on devices smaller than this will be frustrating as you will have to zoom in on each individual page.

Want to read it FREE? We are giving away FREE copies via the Amazon Gift feature to the first 100 people who email us at minecraftemag@gmail.com - Simply put READ eMAG FREE in the subject line so we don't miss it, and we will send it to you via the email you used. We will keep this page updated to let you know how many copies are left.

Copies to give away: 100

Copies left : 100 (at time offer was made).

Please note - we reserve the right to withdraw (or extend) this offer at any time. While we believe most people are honest and do the right thing, there are people out there who might use this offer to buy something else. We will be able to check our publishers page to see how many people downloaded this title with the gift feature. Sadly, we are learning that this is the world we live in, and that some people will actually do stuff like this just to get a free \$1.99 ebook. But we still have to pay to gift it to you, and we don't even get a discount. We are doing this to try and get the word out about our eMag. Please consider leaving a review if you get it for free to help us out.
