A woman is on death row and specially selected to become a sex slave for alien miners. By doing so, she will avoid the death penalty, but she is certain she would rather die than submit to such hideous creatures.

Her breasts and vagina, however, have been specially altered to make sex with the miners a far more enjoyable experience for her than she ever could have imagined.

The question remains, that if given the chance to escape, what will she do?

As an added bonus, we have added six more sex slave tales to this selection at no extra charge, making it an even more desirable read.
