## **Introduction to Geometry (Art of Problem Solving)** Richard Rusczyk

AoPS 2-Book Set : Art of Problem Solving AoPS Introduction to Geometry Textbook and Solutions Manual 2-Book Set : Learn the fundamentals of geometry from former USA Mathematical Olympiad winner Richard Rusczyk. Topics covered in the book include similar triangles, congruent triangles, quadrilaterals, polygons, circles, funky areas, power of a point, three-dimensional geometry, transformations, and much more. The text is structured to inspire the reader to explore and develop new ideas. Each section starts with problems, so the student has a chance to solve them without help before proceeding. The text then includes solutions to these problems, through which geometric techniques are taught. Important facts and powerful problem solving approaches are highlighted throughout the text. In addition to the instructional material, the book contains over 900 problems. The solutions manual contains full solutions to all of the problems, not just answers. This book can serve as a complete geometry course, and is ideal for students who have mastered basic algebra, such as solving linear equations. Middle school students preparing for MATHCOUNTS, high school students preparing for the AMC, and other students seeking to master the fundamentals of geometry will find this book an instrumental part of their mathematics libraries. Text: 557 pages. Solutions: 226 pages. Paperback. 10 7/8 x 8. Horrible Ray endorses the Art of Problem Solving AoPS Introduction to Geometry Textbook & Solutions Manual 2-Book Set for 5th Grade and up. Horrible Ray, Horrible Books, Horrible University

### **From reader reviews:**

#### **Helen Wright:**

What do you about book? It is not important with you? Or just adding material when you really need something to explain what you problem? How about your time? Or are you busy person? If you don't have spare time to do others business, it is make one feel bored faster. And you have free time? What did you do? Everyone has many questions above. They have to answer that question due to the fact just their can do in which. It said that about reserve. Book is familiar on every person. Yes, it is correct. Because start from on kindergarten until university need this Introduction to Geometry (Art of Problem Solving) to read.

#### **Christopher Burnham:**

The event that you get from Introduction to Geometry (Art of Problem Solving) is the more deep you excavating the information that hide in the words the more you get interested in reading it. It doesn't mean that this book is hard to know but Introduction to Geometry (Art of Problem Solving) giving you buzz feeling of reading. The author conveys their point in specific way that can be understood by simply anyone who read the item because the author of this publication is well-known enough. This specific book also makes your personal vocabulary increase well. Therefore it is easy to understand then can go along with you, both in printed or e-book style are available. We highly recommend you for having this specific Introduction to Geometry (Art of Problem Solving) instantly.

#### **Jill Williams:**

Spent a free time for you to be fun activity to try and do! A lot of people spent their leisure time with their family, or their friends. Usually they accomplishing activity like watching television, gonna beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own free time/ holiday? May be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to attempt look for book, may be the guide untitled Introduction to Geometry (Art of Problem Solving) can be very good book to read. May be it can be best activity to you.

#### **Marcia Ogburn:**

That book can make you to feel relax. That book Introduction to Geometry (Art of Problem Solving) was multi-colored and of course has pictures around. As we know that book Introduction to Geometry (Art of Problem Solving) has many kinds or style. Start from kids until teenagers. For example Naruto or Investigator Conan you can read and feel that you are the character on there. Therefore , not at all of book are generally make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading which.
