*Alexander Levin*

## **Difference Algebra (Algebra and Applications)** Alexander Levin

Difference algebra grew out of the study of algebraic difference equations with coefficients from functional fields. The first stage of this development of the theory is associated with its founder, J.F. Ritt (1893-1951), and R. Cohn, whose book *Difference Algebra* (1965) remained the only fundamental monograph on the subject for many years. Nowadays, difference algebra has overgrown the frame of the theory of ordinary algebraic difference equations and appears as a rich theory with applications to the study of equations in finite differences, functional equations, differential equations with delay, algebraic structures with operators, group and semigroup rings.

The monograph is intended for graduate students and researchers in difference and differential algebra, commutative algebra, ring theory, and algebraic geometry. The book is self-contained; it requires no prerequisites other than the knowledge of basic algebraic concepts and a mathematical maturity of an advanced undergraduate.

### **From reader reviews:**

#### **Lawrence Seay:**

The book Difference Algebra (Algebra and Applications) make one feel enjoy for your spare time. You may use to make your capable a lot more increase. Book can being your best friend when you getting tension or having big problem with the subject. If you can make studying a book Difference Algebra (Algebra and Applications) to get your habit, you can get considerably more advantages, like add your own personal capable, increase your knowledge about several or all subjects. You are able to know everything if you like start and read a guide Difference Algebra (Algebra and Applications). Kinds of book are a lot of. It means that, science e-book or encyclopedia or other folks. So , how do you think about this e-book?

#### **Patricia Northcutt:**

This Difference Algebra (Algebra and Applications) book is simply not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is information inside this guide incredible fresh, you will get details which is getting deeper anyone read a lot of information you will get. This specific Difference Algebra (Algebra and Applications) without we comprehend teach the one who looking at it become critical in thinking and analyzing. Don't always be worry Difference Algebra (Algebra and Applications) can bring whenever you are and not make your case space or bookshelves' turn out to be full because you can have it with your lovely laptop even cellphone. This Difference Algebra (Algebra and Applications) having excellent arrangement in word in addition to layout, so you will not feel uninterested in reading.

#### **Mildred McConkey:**

Reading a reserve can be one of a lot of task that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people love it. First reading a reserve will give you a lot of new data. When you read a guide you will get new information because book is one of a number of ways to share the information or maybe their idea. Second, examining a book will make you more imaginative. When you reading a book especially fictional book the author will bring one to imagine the story how the characters do it anything. Third, it is possible to share your knowledge to other individuals. When you read this Difference Algebra (Algebra and Applications), it is possible to tells your family, friends as well as soon about yours e-book. Your knowledge can inspire average, make them reading a publication.

#### **Wanda Hardin:**

A lot of reserve has printed but it differs. You can get it by world wide web on social media. You can choose the top book for you, science, comedy, novel, or whatever simply by searching from it. It is known as of book Difference Algebra (Algebra and Applications). You can include your knowledge by it. Without making the printed book, it can add your knowledge and make you actually happier to read. It is most critical that, you must aware about reserve. It can bring you from one destination for a other place.
