Key Labor Market Indicators: Analysis with Household Survey Data (Streamlined Analysis with ADePT Software) Ina Pietschmann, Steven Kapsos, Zurab Sajaia, Michael Lokshin

This volume is an introduction to labor market indicator analysis and a guide for analyzing household survey data using the ADePT ILO Labor Market Indicators Module. The analytical framework and approach taken up in this book is based on the International Labour Organization's publication.

KILM indicators provide a strong basis on which to address key questions related to productive employment and decent work. The ADePT ILO Labor Market Indicators module is a powerful tool for producing and analyzing KILM indicators using household survey data. The software allows researchers and practitioners to automate data production, to minimize data production errors and to quickly producing a wide range of labor market data from labor force surveys or other household surveys that contain labor market information.
