Natural Wonders of North America captures the magic and beauty of this great continent. Through the pages, you'll wander through temperate rain forests, visit the only place in the U.S. where the rivers flow in three different directions, see the world's deepest canyon and a mountain that looks like a cathedral. You'll marvel at underground ponds, where shrimp swim, and forests of petrified trees. You'll wander along clear mountain streams flowing from mysterious caverns and travel through dense, fragrant timberland to the ledges where eagles roost. You may decide to visit the sifting sands of a desert or peek into the smoldering heart of a sleeping volcano. The sites explored for you in these pages represent history older than writing, even older than mankind, matured now into latterday glories of stone and sand, wood and water. And in these settings, wild animals and colorful plants maintain the brilliantly structured ecosystems of survival. After you've seen Natural Wonders of North America, your view of this marvelous and changing continent will never be the same. Included are 52 major wonders covering the U.S., Canada, and Mexico; 200 full-color photographs to bring each wonder magnificently to life; 52 full-color maps with main roads and sites highlighted; and a Gazetteer with detailed listings of all the natural wonders with additional things to see and do, along with useful information regarding opening times, addresses, and facilities.
