Improving your vocabulary is important, but where do you start? The English language has hundreds of thousands of words. To find out which words you absolutely need to know, The Princeton Review researched the vocabularies of educated adults. It analyzed newspapers from **The New York Times** to **The Wall Street Journal**, magazines from **Time** to **Scientific American** and books from current bestsellers to classics. It threw out the words that most people know and focused on the words that people misunderstand or misuse. From these, it selected 823 words that appeared most frequently.

And for students, The Princeton Review did the same thing. It analyzed the PSAT, the SAT, and GRE to determine which words are tested more frequently. **Word Smart** is the only vocabulary book you'll ever need.
