City and Citizens in Modern China: Towards a Scientific Approach to Urban Development (Urban Development in China)

This book offers a comprehensive evaluation of the development of China's key cities from the unique perspective of scientific development. The book includes all Chinese urban conurbations, from prefecture level upwards, to ensure the results, observations, and analysis is comprehensive and balanced. It draws a clear picture of the relationships between the city and its dwellers. China's cities have evolved and grown radically in recent years, and the book examines these changes with a clear focus on the wellbeing of those who now reside in them. *** Librarians: ebook available on ProQuest and EBSCO (Series: Urban Development in China) [Subject: Sociology, Chinese Studies, Asian Studies, Urban Studies, Development Studies]
