Field Grown Cut Flowers: A Practical Guide and Sourcebook : Commercial Field Grown Fresh and Dried Cut Flower Production Alan B. Stevens

FIELD GROWN CUT FLOWERS: A Practical Guide & Sourcebook by Alan Stevens, Ph.D., is a collaboration between the author, a 26 year veteran of commercial and academic floriculture, and John S. Hurd, a Wisconsin farmer who began growing flowers experimentally in 1990 when the Wisconsin Department of Agriculture started investigating commercial floriculture as a crop option for the state's family farms.

FIELD GROWN CUT FLOWERS provides a wealth of down-to-earth advice on planting, cultivating, and harvesting flower crops. There is detailed coverage on the post-harvest handling of fresh-cut flowers and on drying methods for a variety of everlastings, also a practical discussion of business and marketing options for flower growers, including farmer's markets and pick-you-own operations and mail order.

The practical information and hands-on focus derived from the real-world experiences of a successful flower grower make this book a real resource for anyone interested in the art and science of flower production.
