Hospital Acquired Infections: Prevention & Control Purva Mathur

This book is part of the LWW India publishing program. This program is developed for the Indian market working with Indian authors who are the foremost experts in their respective fields. Our Indian authors do research and teach at the most respected Indian medical schools and academic hospitals.

The spread of infections associated with hospitals and clinics has increased dramatically in recent years and their prevention constitutes a major challenge for healthcare personnel. This book highlights the growing threat from hospital acquired infections and thoroughly explains the relevant measures for their prevention. Measures for control are also succinctly presented. The book also focuses on local epidemiology relating to the spread of these infections in India and highlights appropriate measures for their prevention.

The text is presented in a clear and crisp style and important features and procedures are adequately highlighted in relevant boxes, tables and flowcharts. Physicians, surgeons and microbiologists would find this book to be extremely useful. Laboratory personnel and nursing staff would also benefit considerably from this book.
