"I have read this work with delight. The author's explanation of words in the Hebrew language is very helpful, and will be so to theological students and lecturers. The book contains concrete examples and word samples, indicating just how dynamic Biblical Hebrew has been. The spreadsheet format is wonderful. The Alphabet and Vowel charts offer an opportunity to beginners of the language to learn easily and quickly. The adjective and preposition chapters are all-important for this learning. The pronunciation column and notes of interest column are both unique assets in this writing. Actually, I have found great use for all twelve of the categories of this book. The history offered is not only important, but helpful as readers reach an understanding of how the language was developed and how it is different from the Hebrew spoken today. An excellent work. I strongly recommend this book to students of the Bible worldwide." The Right Reverend A. B. Lamido
