Continental Philosophy: An Introduction David West

This book is a fully updated and expanded new edition of *An Introduction to Continental Philosophy*, first published in 1996. It provides a clear, concise and readable introduction to philosophy in the continental tradition. It is a wide-ranging and reliable guide to the work of such major figures as Nietzsche, Habermas, Heidegger, Arendt, Sartre, Foucault, Derrida and Žižek. At the same time, it situates their thought within a coherent overall account of the development of continental philosophy since the Enlightenment.

Individual chapters consider the character of modernity, the Enlightenment and its continental critics; the ideas of Marxism, the Frankfurt School and Habermas; hermeneutics and phenomenology; existentialism; structuralism, post-structuralism and postmodernism. In addition to the thinkers already mentioned, there is extended discussion of the ideas of Kant, Hegel, Dilthey, Husserl, Gadamer, Kierkegaard, de Beauvoir and Lyotard. The new edition includes an additional, full-length chapter on continental philosophy in the twenty-first century focusing on Giorgio Agamben, Alain Badiou and Slavoj Žižek.

Continental Philosophy: An Introduction is an invaluable introductory text for courses on continental philosophy as well as courses in the humanities and social sciences dealing with major figures or influential approaches within that tradition.
