For twenty-one years of Queen Victoria's reign she was married to a German Prince who was as responsible for the nation's renaissance as the monarch herself. Victoria and Albert had nine children and the family became the archetype of the nineteenth century. But the relationship between the Queen and her Prince Consort was passionate and turbulent; thunderous rows threatened to tear them apart, but always reconciliation and love broke through. After Albert's untimely death, Queen Victoria reigned for the next forty years as if he was still at her side, making the judgements and decisions he would have made.
