Difficult Decisions in Hepatobiliary and Pancreatic Surgery: An Evidence-Based Approach (Difficult Decisions in Surgery: An Evidence-Based Approach)

This book is part of a series covering surgical specialties. The volumes are multi-authored, containing brief chapters, each of which are devoted to one or two specific questions or decisions within that specialty that are difficult or controversial. The volumes are intended as a current and timely reference source for practicing surgeons, surgeons in training, and educators that describe the recommended ideal approach, rather than customary care, in selected clinical situations.
