Statistical Methods in Analytical Chemistry

Peter C. Meier, Richard E. Zünd

Statistical Methods in Analytical Chemistry Peter C. Meier, Richard E. Zünd

Combines a cookbook approach with the use of PCs and programmable calculators. Contains statistics suitable for the low number of samples, high-pressure situations commonly found in established analytical methods with algorithms to eliminate statistical table handling, sample programs and data sets that allow readers to play with ideas, recognize trends and connections and observe how various equations are linked in decision making. Features applications in GMP/GLP settings. Packed with examples and illustrations.
