The Theory of Celestial Influence: Man, the Universe and Cosmic Mystery

Rodney Collin

The Theory of Celestial Influence: Man, the Universe and Cosmic Mystery Rodney Collin

An exploration of the universe and man's place in it. Rodney Collin examines 20th-century scientific discoveries and traditional esoteric teachings and concludes that the driving force behind everything is neither procreation nor survival, but expansion of awareness. Collin sets out to reconcile the considerable contradictions of the rational and imaginative minds and of the ways we see the external world versus our inner selves.
