Teaching of Science: A Modern Approach R.M. Gupta, Vandana Kalra

Education is the pivot around which the wheel of progress of any country revolves. A stereotyped and traditional system of education does not serve the true purpose of education. Therefore, a modern, scientific and activity-based learning is the need of the hour. This book concentrates on various modern concepts of science education and makes the readers familiar with the state-of-the-art methods of science teaching. This book puts emphasis on the student-centric learning based on activity approach with a vision of hands-on minds-on. The education system of a country should be constantly assessed and examined to keep pace with the ever-changing methods of learning and this book by focusing on the latest trends and technologies used in science education makes the task easier.
